Incorporated under the laws of the State of Iowa with principal place of business in

City \_\_\_\_\_ State \_\_\_\_\_ Date \_\_\_\_\_

Approval is hereby requested of underground construction of a non-drainage culvert through the road.

*\*\*Plat of proposed underground construction showing location and other pertinent information shall be attached to each copy of the application.\*\**

The proposed line will be located on Osceola County Secondary Roads as follows: \_\_\_\_\_

AGREEMENTS: The applicant agrees that the following stipulations shall govern under this permit:

1. The applicant shall hire a contractor to install the pipe. All costs of the installation shall be paid for by the applicant.
2. The applicant will at any time subsequent to placing the pipe line, and at his own expense, relay, reconstruct, or encase his lines as may become necessary to conform to new grades, alignment or widening right-of-way, resulting from maintenance or construction operations by the County irrespective of whether or not additional right-of-way is acquired in connection with such highway improvement. The applicant agrees to do this promptly on order by the County and without cost to the County. If the applicant is unable to comply promptly, the County may cause the work to be done and the applicant will pay the cost thereof upon receipt of statement.

The County will endeavor to give the applicant sufficient notice of any proposed construction or maintenance work, on either existing or newly acquired right-of-way, that is likely to expose, cover up, or disturb any cable, pipe line, or tile line belonging to the applicant, in order that the applicant may arrange to protect his lines. The County will inform contractors and others working on the job of the location of the lines so that reasonable care may be taken to avoid damaging the lines. The County and the Board of Supervisors assume no responsibility, however, for failure to give such notice.

3. The County and the Board of Supervisors assume no responsibility for damages to the applicant's property occasioned by any construction or maintenance operations on said highway, including new or additional right-of-way acquired in connection therewith, subsequent to the building of the said pipeline.
4. The applicant shall take all reasonable precaution during the construction of said pipeline to protect and safeguard the lives and property of the traveling public and adjacent property owners and shall save the County and the Board of Supervisors harmless of any damages or losses that may be sustained by the traveling public or adjacent property owners on account of such construction operations.
5. The applicant shall hold the County and the Board of Supervisors harmless from any damage that may result to said highway because of construction or maintenance of said pipeline, and shall reimburse the County of the Board of Supervisors for any expenditure that the County Board of Supervisors may have to make on said highway on account of said applicant's pipeline having been constructed thereon.
6. The applicant agrees to give the County forty-eight hours notice of its intention to start construction on the highway right-of-way.
7. Pipe crossings shall be constructed of new 15" corrugated metal pipe. If more than one section of pipe is used, the sections shall be connected by an approved band. The pipe shall extend from foreslope to foreslope and shall have at least 2' of cover over the pipe. The pipes shall not be used for surface drainage. Gravel and dirt roads may be open cut. All pavement crossings must be bored. Trenches shall be backfilled and compacted in layers of 6" or less. All work shall be done in a workman-like manner and the roadway left in an acceptable condition.
8. The applicant of his contractor will be responsible for notifying Iowa One Call (800-292-8989) or (811) and having all utilities located.
9. This permit is subject to any laws now in effect or any laws which may be hereafter enacted.
10. This application is subject to all the rules and regulations of the Board of Supervisors and to revocation by the Board of Supervisors at any time, when in the judgement of the Supervisors it is necessary in the improvement or maintenance of the highway or for other reasonable cause.
11. A payment of \$200 must be submitted with each application. This is to cover the cost of graveling and blading the road. (\$100 if the roadway is paved). These funds are not a deposit and are not refundable.
